

## FEATURED UNDERGRADUATE COURSES – SPRING 2018

### HISTORY OF SCIENCE 202 – THE MAKING OF MODERN SCIENCE

**PROF. CATHERINE JACKSON**

**MW 9:55-10:45 AM, 2650 MOSSE HUMANITIES**

What does it mean to be a scientist or engineer? What role might/should scientists and engineers play in society? Learn why lab classes began, and how science and engineering helped shape modern European history. Understand the origins of science in the US, and explore present-day challenges including climate change and sustainable energy.
